

Anh Thu Do

916-513-3257 | athudo@g.ucla.edu | github.com/minado05 | linkedin.com/in/anh-thu-do-atd | Rewriting The Code (RTC)
English (Native/Bilingual), Vietnamese (Native/Bilingual)

EDUCATION

University of California, Los Angeles

GPA: 3.8

B.S. Mathematics of Computation (Mathematics, Computer Science)

Sept. 2023 – June 2027

- **Minor:** Data Science Engineering | **Relevant Coursework:** Data Structures and Algorithms, Fundamentals of Artificial Intelligence, Machine Learning, Databases, Deep Learning for Computer Vision

EXPERIENCE

Software Engineering Intern

June 2026 – Aug. 2026

Capital One | *Stack:* Python, FastAPI, JavaScript, HTML/CSS, Observe, PagerDuty, New Relic, Kubernetes

- Developed a **full-stack Generative AI**-powered tool that accelerates incident response times (MTTR) for on-call engineers by **50%**, leveraging **Claude Code** to boost implementation
- Integrated **Retrieval-Augmented Generation (RAG)** to retrieve relevant context from past incidents and produce AI-synthesized root-cause analysis
- Built an interactive **LLM-powered chatbot**, **prompt-engineering** its responses for accuracy and relevance
- Integrated multiple **observability** and monitoring **APIs** to unify incident data into a single interface

Full-Stack Developer

Nov. 2025 – June 2026

PATH | *Stack:* TypeScript, React, Next.js, Supabase, AWS S3, React Hook Form, React-Bootstrap

- Developed a **full-stack** web application to streamline resource management systems, **replacing** a spreadsheet-based tracking process with a structured relational database
- Built responsive, interactive pages from designer mockups using **reusable** form components, and engineered **SQL** queries to power real-time inventory tracking

Full-Stack Developer Intern

Jan. 2026 – May 2026

Cosmetix | *Stack:* TypeScript, Python, FastAPI, React Native, Firebase

- Developed a lookup pipeline for the barcode scanner feature, reducing failed scans and closing data coverage gaps
- Built automated **end-to-end test suites** using **Detox** to validate critical user flows across the app

Undergraduate Research Assistant

Nov. 2025 – June 2026

StarAI Lab

- Investigated tokenization behavior across multiple **LLMs** and tested an algorithm to improve **generation efficiency** for low-resource languages

Course Reader

Oct. 2024 – June 2025

UCLA Mathematics Department

- Graded linear algebra and **data structures and algorithms (C++)** courses

PROJECTS

Dango | *Full-Stack Social Media Platform for Sharing Restaurant Itineraries* | *React, TypeScript, Supabase* | [Link](#)

- Built a **full-stack** social media app with post creation, **embedding**-based semantic search, **AI**-powered search summaries, personalized feeds, post interactions, and profile management

Glow | *Full-Stack E-commerce Marketplace for Cosmetics* | *React, TypeScript, Firebase* | [Link](#)

- Built a working, **full-stack** e-commerce marketplace with product search, cart management, checkout, and a **Firebase** backend for authentication and real-time product data

LEADERSHIP & INVOLVEMENT

Full-Stack Developer

Oct. 2025 – Present

LA Blueprint

- Developing full-stack web and mobile applications for nonprofit organizations

Software Engineer

Jan. 2025 – May 2025

ACM-W Tech Fellowship | *Stack:* JavaScript, React Native, Firebase

- Collaborated with a team of 5 to develop a full-stack mobile app MVP, improving accessibility to student clubs

Event Planning Intern

Nov. 2023 – May 2024

KINSA (K-pop International Student Association)

- Coordinated meeting activities and assisted in coordinating K-Factor, a northern California-wide dance showcase

President & Founding Member

Aug. 2019 – May 2023

Vietnamese Culture Club

- Pioneered and directed Vietnamese cultural awareness events and dance performances for 4 consecutive years

TECHNICAL SKILLS

Frontend: React, Next.js, React Native, HTML/CSS, React Hook Form, React-Bootstrap

Backend: Node.js, FastAPI, Supabase, Firebase, PostgreSQL

Developer Tools: Claude Code, Git/GitHub, Docker, Kubernetes

AI: RAG, ChromaDB, PyTorch, Prompt Engineering

Programming Languages: TypeScript, Python, C++, JavaScript, SQL, R
